August 28, 2015

## **CLOSURE OF HURON STREET AT QUEEN STREET**

As part of the next phase of the Huron Street project, it will be necessary to close Huron Street between Queen Street and the Bridge Plaza entrance commencing **Monday, August 31**. As of this date, all US bound bridge traffic will be re-routed to Albert Street via Carmen's Way in order to access the Bridge Plaza entrance off Huron Street. All Canada-bound bridge traffic will be re-routed within the Bridge Plaza to exit via Queen Street.

During this period, it will also be necessary to re-route some oversize loads coming from the US through the former Bay – Queen – Church & Wellington route in order to access Hwy 17 north and east.

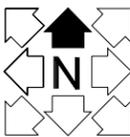

The above closure is scheduled for a period of 3 – 4 weeks at which time access from Queen Street will be re-opened and the Huron-Albert intersection is closed.

We regret that this may cause some inconvenience; however, it is necessary to complete the next phase of the Huron Street project.

We appreciate your patience and cooperation.
